PROFESSIONAL SUMMARY

React.js Developer with internship experience building responsive and user-friendly web applications using React.js, JavaScript (ES6+), Redux, Redux Toolkit, Firebase, HTML5, CSS3, and Bootstrap.

Experienced in creating reusable UI components, integrating REST APIs, implementing Firebase Authentication and Realtime Database, and optimizing application performance. Passionate about building clean, scalable frontend applications and continuously learning modern frontend technologies.

TECHNICAL SKILLS

Frontend Development: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Responsive Web Design

State Management: Redux, Redux Toolkit

Backend Integration: REST APIs, Axios, Firebase Authentication, Firebase Realtime Database

Database: Firebase Realtime Database, MySQL

Tools & Technologies: Git, GitHub, VS Code, Vite, npm

Other Languages: C++ (Learned during internship)

WORK EXPERIENCE

MERN Stack Developer Intern

March 2026 – Present

ForceWebTech, Ahmedabad

- Developed responsive web applications using React.js.
- Built reusable UI components using HTML5, CSS3, Bootstrap, and JavaScript (ES6+).
- Managed application state using Redux and Redux Toolkit.
- Integrated REST APIs using Axios.
- Implemented Firebase Authentication and Firebase Realtime Database for real-time features.
- Improved application UI/UX and fixed frontend bugs.
- Collaborated with team members using Git and GitHub.

MERN Stack Developer Intern

January 2026 – March 2026

Grownited Private Limited, Ahmedabad

- Developed responsive React.js applications.
- Created reusable components for scalable frontend development.
- Integrated REST APIs.
- Worked with Redux Toolkit for state management.
- Improved UI responsiveness across multiple screen sizes.
- Participated in debugging and frontend optimization.

PROJECTS

React Chat Application

Technologies: React.js, Redux Toolkit, Firebase Authentication, Firebase Realtime Database, HTML5, CSS3, Bootstrap

- Developed a real-time chat application using React.js and Firebase.
- Implemented user authentication using Firebase Authentication.

- Built one-to-one real-time messaging using Firebase Realtime Database.
- Added online/offline user status.
- Integrated browser push notifications.
- Created responsive UI for desktop and mobile devices.

AstroMystic – Horoscope Application

Technologies: React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Bootstrap, REST API

- Developed a responsive horoscope web application using React.js.
- Implemented multilingual support with Redux Toolkit for state management.
- Integrated Horoscope REST APIs to fetch daily, weekly, and monthly horoscope data.
- Built reusable React components for better scalability and maintainability.
- Implemented React Router for seamless page navigation.
- Optimized UI for mobile and desktop devices with responsive design.

Online Nursery Store

Technologies: React.js, JavaScript, HTML5, CSS3

- Designed and developed a responsive e-commerce interface for plant browsing and purchasing
- Built reusable React.js components for product listings, cart management, and checkout flow
- Translated Figma wireframes into pixel-perfect, mobile-responsive React pages

EDUCATION

MSc in Information Technology GLS University, Ahmedabad CGPA: 6.80/10	2024 – 2026
BSc in Information Technology GLS University, Ahmedabad CGPA: 6.48/10	2021 – 2024

CERTIFICATIONS

Deloitte Australia – Technology Job Simulation (Forage) • Completed a simulation involving dashboard design and development tasks • Proposed UI/UX improvements for enterprise-level software interfaces	July 2025
